Sunset Stone was born in 1970 on Colorado’s Front Range. With Castle Rock to our South and the Rockies to the West, our surroundings have always provided us with all the inspiration we could ask for. Our deep appreciation of natural beauty is what drives us to make Sunset Stone the most natural-looking stone veneer you can buy. Sunset Stone has always been a company committed to hard work and transparency. We pour our hearts into our product and the way we treat our customers. It didn’t take long for our reputation to spread beyond Castle Rock.

WHERE SUNSET *takes shape.*

No two Sunsets are ever the same.

At Sunset Stone, we're hands on. Automation has its place, but it's the knowing hands and eyes of an expert that sets a crafted product apart from a mass-produced one. Sunset Stone is so much more than the sum of its parts... it's a labor of love.

Color that's crafted... not contrived.

We largely use organic dry colorants which we apply by hand. Hand-veining takes some practice, but the results are stunning and, like a sunset, entirely unique every time.

Beautiful, through and through.

At Sunset Stone, we embrace traditional craftsmanship to achieve enduring beauty. Each stone is built with expanded shale aggregate, a key element that lightens the material, reduces water absorption, and enhances overall strength and longevity.

BUILT TO CODE. DESIGNED TO LAST.

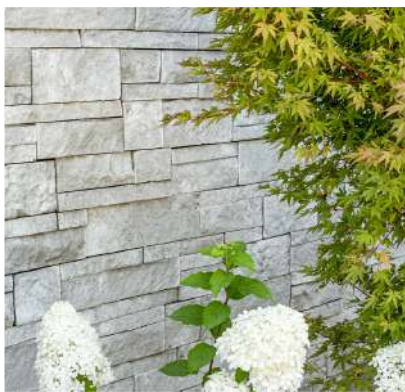

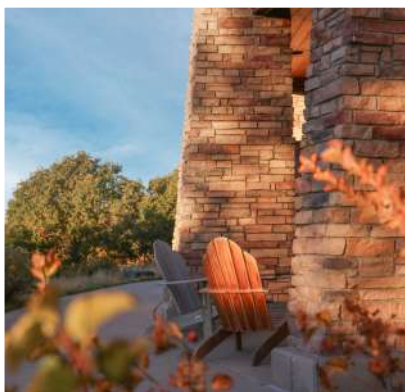

Sunset Stone is proud to support the work of architects, builders, masons, and contractors with timeless, high-quality manufactured stone veneer. Our products are proudly certified to meet ASTM C1670 standards as recognized by the Concrete Masonry & Hardscapes Association (CMHA). Our plant is also ESR certified, ensuring every product meets strict industry and code-based requirements for strength, durability, and consistency.

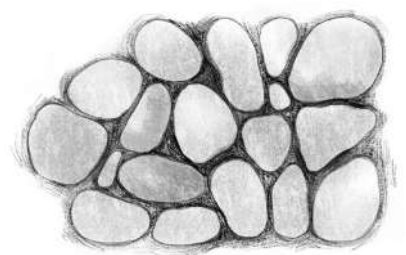

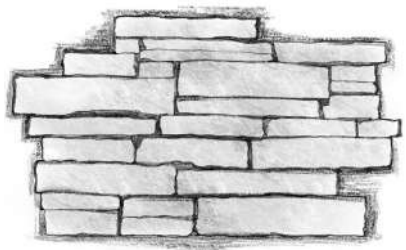

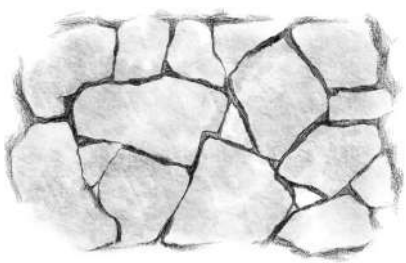

Winter Sky Limestone

ENDURING BEAUTY... *as nature intended.*

Unlike the fleeting beauty of a sunset, Sunset Stone is crafted to endure for generations. Whether enhancing a home's curb appeal or adding lasting beauty and performance to apartment communities, hospitals, and restaurants, Sunset Stone leaves an impression for years to come.

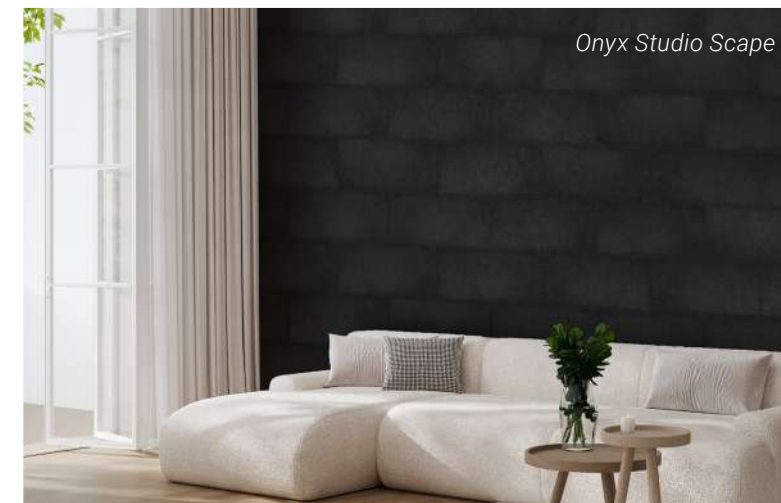

Every possibility begins here. Sunset Stone presents a wide range of authentic manufactured and natural stone textures and colorways. The finishing touch that brings warmth and quiet drama to any space, from a backsplash to a fireplace—or to an entire façade.

Onyx Studio Scape

NEW
PRODUCT

STUDIO SCAPE

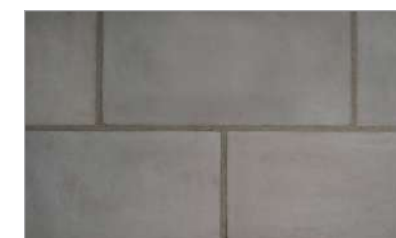

Defined by bold proportions, clean lines, and refined surface texture, Studio Scape delivers a modern, expansive aesthetic with effortless sophistication. Inspired by urban influences and monochromatic palettes, it is designed to layer seamlessly with a range of textures, introducing depth and contrast through intentional material interplay.

LOFT

ONYX

TRIBECA

THIN BRICK

TUMBLLED EDGE THIN BRICK

Achieve the look of weathered, time-kissed brick without decades of waiting. Sunset Stone's Tumbled Edge Thin Brick is available in 6 colors, and helps bring a touch of warmth and character to fireplace surrounds, exteriors, and retail environments.

NATURAL STONE

There's a reason we work so hard to replicate the look of natural stone. It's gorgeous, versatile, and durable. All of our Natural Stone selections lean heavily on the use of limestone and sandstone, sourced solely within the United States.

Natural Stone is a special-order material. Lead times may vary.
